PROFILE SUMMARY

AI & Data Science Manager with 7+ years of experience building enterprise-scale Generative AI, Machine Learning, and MLOps systems across government and enterprise domains. Specialized in production-grade LLM systems, Agentic AI workflows, RAG pipelines, model evaluation, and cloud-native AI infrastructure using IBM watsonx.ai, Azure OpenAI, IBM Cloud, and Azure ML.

PROFESSIONAL EXPERIENCE

Ministry of Electronics and Information Technology (NeGD)

Data Science Manager

New Delhi, India

March 2026 – Present

- Directed national-scale machine learning initiatives for government data infrastructure and policy optimization.
- Established enterprise MLOps governance frameworks aligned with ethical AI and security compliance standards.

IBM

Senior AI Engineer

Bangalore, India

Oct 2023 – Mar 2026

- Architected 10+ production-grade GenAI and MLOps systems using IBM watsonx.ai and IBM Cloud.
- Engineered Elastic Search Hybrid solutions reducing customer resolution time by 25% and cloud costs by 18%.
- Built advanced evaluation pipelines for IBM Granite and watsonx Code Assist using telemetry and MCP/ACP protocols.

Hindustan Unilever Limited (via ThouCentric)

Data Scientist Consultant

Bangalore, India

June 2022 – Oct 2023

- Fine-tuned enterprise LLMs using Azure OpenAI for conversational AI and coding assistant solutions.
- Delivered predictive analytics systems increasing field sales visibility by 15% for FMCG clients.

Canary Global Inc.

Data Scientist

Bangalore, India

Aug 2021 – June 2022

- Developed signal-processing pipelines for high-frequency IoT telemetry and predictive anomaly detection.

EDUCATION

Jawaharlal Nehru University (JNU)

M.Tech in Statistical Computing (Data Science) | GATE Qualified

New Delhi, India

2019 – 2021

- Research Focus: Multi-Label Text Classification of PubMed Documents using Deep Learning (Published via Springer).

Maulana Azad National Urdu University (MANUU)

B.Tech in Computer Science & Information Technology

Hyderabad, India

TECHNICAL COMPETENCIES

Generative AI & LLM Engineering: RAG Pipelines, LangChain, LangGraph, Agentic AI, Multi-Agent Systems, Prompt Engineering, LLM Fine-tuning, SFT, RLHF Concepts, Function Calling, AI Agents, LLM Evaluation, Vector Databases, Semantic Search, Knowledge Retrieval, Conversational AI, Enterprise Chatbots

MLOps & AI Infrastructure: MLflow, Kubernetes, Docker, CI/CD Pipelines, Feature Stores, Model Registry, Model Monitoring, Experiment Tracking, A/B Testing, AI Governance, Deployment Automation, Scalable Inference Systems, API Deployment etc

Machine Learning & Deep Learning: NLP, Deep Learning, Computer Vision, Time Series Forecasting, Signal Processing, Statistical Modelling, Clustering, Feature Engineering, Predictive Analytics, Transfer Learning, Classification, Anomaly Detection

Cloud & AI Platforms: IBM watsonx.ai, IBM Cloud, Azure OpenAI, Azure ML, Azure Functions, Azure App Services, Azure Logic Apps, AWS, IBM Code Engine, Vector Search Infrastructure, Enterprise AI Deployment

Programming & Frameworks: Python, SQL, PyTorch, TensorFlow, Scikit-Learn, Pandas, NumPy, FastAPI, REST APIs, Git, Linux, Elastic Search

Data Engineering & Visualization: Power BI, Data Pipelines, ETL Workflows, Data Preprocessing, Atlan, Structured/Unstructured Data Processing, Telemetry Analytics

KEY ACHIEVEMENTS & HONORS

- **TIME100 AI 2025 Honoree:** Recognized globally for contributions to enterprise AI safety and scalable AI systems.
- **Sony Rise Research India Challenge – 3rd Prize:** Recognized for scalable statistical modelling and applied AI innovation.
